LASCO is now TLA COATINGS !!

The former LASCO range of products is now formally rebranded as TLA COATINGS.

Congratulations to Kathy Ann Martin of the Procurement and Logistics Department for emerging as the winner of the TLA Coatings logo design competition.

Kathy Ann designed her way not only to first place but also onto Lake Asphalt's history. The Board, Management and Staff say thank you for this grand contribution to the growth, development and sustainability of Lake Asphalt.

Kathy Ann Martin receives first prize of two tickets to Tobago from Devi Ramhit of the Marketing and Business Development Department.

HSE AWARENESS WEEK

"Impacts of climate change on occupational safety and health."

World Day for Health and Safety at Work 2024, was observed from April 22, 2024 to April 26, 2024 and was entitled *HSE Awareness Week*.

Each day of the week was filled with mind stimulating activities designed to holistically communicate the various aspects of the theme *"Impacts of climate change on occupational safety and health."*

This was accomplished by utilizing an informative and interactive approach to foster employee engagement, involvement and participation.

The activities included, but were not limited to; lectures, presentations, displays and competitions.

The Planning Committee Members

The following committee members were actively involved in planning, organizing, executing and driving the awareness activities, in keeping with the theme.

Ms. Ava Rajkumar,
Lead (Manager Health Safety and Environment (HSE))

Mrs. Yvette Marshall-Belgrave,
Committee Secretary (HSE Department)

Ms. Ramona Butler (HSE Department)

Mrs. Charlene Pollard (Office of the CEO)

Mr. Shiva Ramlal
Chair OSH Committee/ (HRTSU)

Ms. Harmony Lemo,
Incident Commander

Ms. Jameela McIntyre

Health Capsule

Blood pressure

A risk factor for heart attack and stroke

When your heart beats it pumps blood around your body. As the blood moves it pushes against the sides of blood vessels called arteries. The strength of this pushing is your blood pressure

Most people don't know if they have high blood pressure as often there are no symptoms. The only way to find out is to get it checked

HIGH blood pressure

also called hypertension, puts too much force on your artery walls. Over time this can lead to damaged arteries and increase your risk of heart attack and stroke

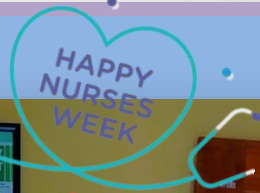

62% OF PEOPLE admitted to hospital with a heart attack have high blood pressure

it can also lead to problems with your eyes and kidneys

CHOICES YOU CAN MAKE TO LOWER RISK OF HEART ATTACK & STROKE

- Stop smoking
- Make heart healthy eating and drinking choices
- Move more
- Lose weight
- Take medications

Acting Chief Executive Officer Mr Swedaka Matthews presents Nurse Victoria Brizan with a floral bouquet during Nurses' Week, as a token of our love and appreciation for her.
